With musical styles ranging from ethereal trip hop to deep trance, Lost Memories offers the listener a release from everyday life with the CD "The Edge of Eternity." The sensual female vocal styling will lull, trick and tease the listener into a state of reverie. Those of you familiar with some of the earlier artists on the 4AD record label (such as Dead Can Dance and Clan of Xymox) will be no stranger to this sound. Those of you who aren't will be pleasantly surprised. Consider it a soundtrack for an intimate rendezvous.
