Details: I was diagnosed with Parkinson's Disease 2 1/2 years ago. Since then I've been having a difficult time playing the guitar and piano. My wife suggested that I write a song about PD. I thought it was a crazy idea. How depressing. Then I realized it didn't need to be a downer! Why not make it a jaunty, uptempo little number with a positive message? So that's what I did! A portion of the proceeds from each download will be donated to The Michael J. Fox Foundation.
