combination of funk, smooth jazz, and loving R&B 10 MP3 Songs URBAN/R&B: Rhythm Blues, JAZZ: Smooth Jazz Details: I give all praises to The Most High who gave me the ability to play and to organize noise into music. I play all sorts of music but what I love the most is writing my own. I believe many artist have totally lost their way with the lyrics they write. Unfortunately there are still many good artists with positive messages who never get heard. So I hope to write songs to wake up the the dry bones in this land. Bring back music of love and peace. Some of my favorite musicians include Prince, Earth Wind and Fire, Zap and a host of funk bands. I hope one day African American will go back working as a band and stop all this solo stuff. I hope one day myself can get back into a band because I really miss working with other musicians. Today I can be found playing music in various house of worship. On this CD I decide to mix a little funk, some folk, R&B, smooth jazz and smooth mediation sounds. Most of the lyrics are found in the Holy writing e-mail and tell me if you can where they came from. I wrote and played all parts from writer to recording engineer. Sometimes I sit at home on a Shabath night with all the lights out and just relax listening to my music. I hope you will purchase it and get the same relaxing feeling I did. Shalom Raphael ben Dan
