Heather Maguies is a werewolf and so is her mother. The werewolf curse causes every woman in her family to turn into timber wolves during the three nights of the full moon. Only Heather's family and her three best friends know about the curse. While trying to find a cure for his sister, Scott Maguies along with Heather's best friends find out that the cure lies within a male cure victim. But the male cure victim must endure three stages of torture, without being told why he is being tortured and he can't have any contact with Heather until he is reunited with her on the first night of the following full moon. All of them know what they have to do to save Heather from the werewolf curse. That is until they find out not only what each stage of the torture is but that Heather's cure victim ends up being the one person they never thought or wanted it to be, her very own boyfriend, Chris Matthews.
