

Visualization, Explanation And Reasoning Styles In Mathematics

[DOWNLOAD HERE](#)

Contributing Authors.- P. Mancosu, K.P. Jrgensen and S.A. Pedersen: Introduction.- Part I. Mathematical Reasoning And Visualization.- P. Mancosu: Visualization in Logic and Mathematics.- M. Giaquinto: From Symmetry Perception to Basic Geometry. Introduction.- J.R. Brown: Naturalism, Pictures, and Platonic Intuitions.- M. Giaquinto: Mathematical Activity.- Part II. Mathematical Explanation and Proof Styles.- J. Hyrup: Tertium Non Datur: On Reasoning Styles in Early Mathematics.- K. Chemla: The Interplay Between Proof and Algorithm in 3rd Century China: The Operation as Prescription of Computation and the Operation as Argument.- J. Tappenden: Proof Style and Understanding in Mathematics I: Visualization, Unification and Axiom Choice.- J. Hafner and P. Mancosu: The Varieties of Mathematical Explanations.- R. Netz: The Aesthetics of Mathematics: A Study.- Index. EAN/ISBN : 9781402033353 Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Mancosu, Paolo - Jorgensen, Klaus Frovin - Pedersen, Stig Andur
