125 Ways To Save Money ... and Still Be Green! Go Green - Save Green And Make A MASSIVE Difference... Friday, July 27, 2012 The Dalai Lama put it best when he said, We have a responsibility to look after our planet. It is our only home. Unfortunately, most Americans still think Kermit the Frog was right when he said, It aint easy being green. But Kermit wasnt talking about the environment - hes a frog,

green in color, and besides, he isn't even real! Our planet is warming up and many scientists believe we humans are the cause of the heat. This causes the Greenhouse Effect. And it just keeps getting hotter and hotter and hotter... As if that isn't enough, the whole globe is suffering an economic downturn like we've never known before. Is there no hope? There's plenty of hope. YOU can do something about it - and save some of your hard earned money too! Kermit the Frog was wrong - it's easy being green, and it's easy to save money at the same time! This book saves you money and you can still be green... Back In The Good Old Days Everyone Was Green - Life was simple then. They didn't travel on huge jumbo jets, they didn't run around the country in gas-guzzling motor cars, they didn't cool themselves in summer with air conditioners, consuming vast amounts of energy in the process. Today we are all paying the price of progress. No matter what life style you have today, everything you need to know about saving money and helping the planet is all in this book There are so many different ways to be Green while saving Money. Most of them you probably never even thought about, and most of them are free to do. This book has crucial information.
