Five guys from TJ who play energetic melodic punk in Spanish. They keep it real by singing about the simple things in life: love, relationships and life in general. 12 MP3 Songs LATIN: Rock en Espanol, ROCK: Punk Details: BYE SAMI "Otro Da Ms" Julio Selva-drums Ivan Silva-guitar Julian Rodriguez-vox Eugenio Doderero-bass - vocals Pablo Doderero-guitar Based in Tijuana, Mexico (just south of the Mexican border), Bye Sami is both an energetic melodic new school punk band. The band's songs have fast tempos, guitar-powered aggression and pop melodies combined with introspective, confessional lyrics. And musically, Bye Sami is comparable to bands like Midtown, NOFX and Lagwagon (among others). But lyrically, there is one major difference between them and those English-language outfits: Bye Sami's lyrics are in Spanish. Bye Sami has performed in Baja, Mexico City, Monterrey, Cd, Juarez Chihuahua, Durango, Zacatecas, and Southern California. Bye Sami was formed in Tijuana in 1997, when the band was still called Los Alex. The Latino rockers soon acquired a small following in Mexico as well as in the United States, and it wasn't unusual for a gig in Tijuana or Mexico City to be followed by a gig in Los Angeles or San Diego. In 2001, Los Alex changed their name to Bye Sami and signed to SourPOP Records. It was also in 2001 that Bye Sami recorded their debut album, "Otro Da Ms", which was produced by Mike T (known for his work with Union 13, Choking Victim and Osker). Although Bye Sami had put out an EP back when they were called Los Alex, "Otro Dia Mas" was their first full-length album. - Courtesy of Alex Henderson -ALL MUSIC GUIDE Discography: "Otro Dia Mas" SourPop Records 2002 CD, USA "Nos Creian Mudos" Compilation Discos Suicida, 2002 CD, Mexico "Katalogo Sonoro II" Entes Anomicos Records, 2002 CD, Peru "Boom! Also, the band's video "Otro Dia Mas" is earning videoplay on MTV Latin American feed. The band continues to perform throughout Mexico and U.S. ABOUT SOURPOP RECORDS SourPOP Records' music targets the new generation of kids who are pursuing Neo-Punk, singing in Spanish or Bilingual about love, lust, broken hearts and life in general. Musically the label's bands are guitar driven with more or less normal vocal tones, and a lot more melodic than classic punk. The label's music scope explores other musical variations such as indie rock and power pop. Visit us at sourpop.net Contact: Sourpopla@aol.com
