Melodic, hard-driven, alternative metal, hard rock 11 MP3 Songs METAL: Alternative Metal, ROCK: Hard Rock Details: CYPHER is an intensely explosive alternative metal band based in Baltimore, Maryland. Having joined forces in 1999, and replacing original drummer in 2001, the trio brings together an addictive mix of viciously raw guitar riffs, seamlessly melodic bass lines, and fist-pumping drum beats that compare to no other. After the release of "Sunshine Blind", their first CD, CYPHER began supporting in all area venues to a diverse and highly enthusiastic crowd. But, they needed to create the ultimate CD that culminated all of their live energy into a product the listener could take home to satisfy the craving that happens after the show. That time is now. CYPHER has just finished recording an 11 song CD titled "Acid Kiss" to set the world afire. Vocalist/bassist Jeff Caudle, CYPHER's main melodic influence, uses songs as an emotional release of all the negative energy from personal trials in his life. With imagination, strong melody, and commitment he's the ideal front man. Guitarist Vee brings a heavy darker writing style to CYPHER's music. Believing that visual energy is as important as great song writing, his live performances are energized and often draining. His thick, aggressive tone, along with the addition of a distorted Cello gives CYPHER a distinctive sound all their own. Playing drums, Steve Segal is the driving force behind the "chest-thumping" rhythm that is CYPHER. His prolific knowledge of sampling technology and his technical ability weaves the songs into a fluid and cohesive mix. Poised to drive the world into a frenzy CYPHER will amaze all who witness their energy, drive, and thick wall of sound. And coming out of just three musicians on stage you won't want to miss this.
