His inspiring instrumentals combine the sounds of acoustic/electric with classical. His unique fingerstyle makes beautiful music -- it speaks where words fail. 7 MP3 Songs NEW AGE: Healing, EASY LISTENING: Background Music Details: "Dave plays original music, written from the heart and derived both from his relationship with God and life experiences. It is sometimes difficult for instrumentalists to effectively translate such intimate thoughts, but Dave's playing and spirit move the music right from the guitar strings straight to your heart." Timothy Godby, Pastor of Worship Arts - Greenville Nazarene "I have a multitude of instrumental / ambient / calming CDs... Yours is most definitely one of a kind. Never before have I heard music that not only allows one to continue with whatever is at hand - your music encourages, facilitates and improves what's being read, written, studied - whatever. Peace settles in the house whenever your music is on." Laurie - Greenville, SC "I just wanted to let you know what a blessing your music has been to us. Its beauty and God-centered peacefulness speaks to us so much. My husband uses your CD at church as background music during counseling. I listen to it at home when I need to be calm." Rena - Roanoke, VA Dave's songs include no singing or words, but if you listen carefully you will come to understand that words might only get in the way of what the music alone is capable of saying. ---- Hey Folks, Just wanted to let you know I'm finally in the official recording stages of the next CD. Thanks for all the incredibly encouraging emails and referrals. -Dave
