

Mp3 Dennis Jones - Passion For The Blues

A very unique blend of guitar driven blues. 100 Dennis Jones 10 MP3 Songs BLUES: Electric Blues, BLUES: Rockin' Blues Details: "Passion For The Blues" is Dennis's second released on BlueRockRecords. Unlike the first CD "Falling Up" with it's eclectic blues sound this CD is very raw and live, and sticks to a blues rock format with a few exceptions. Many of the songs have been performed on stage for awhile so getting the right feel was much easier. The style and pace of this CD should reach a much wider audience then ever before. All but two of the ten tracks are originals, but don't expect the covers to sound like the original versions. Dennis thrives on performing live and hopes this CD will give you a good idea what that experience is all about.
