French Touch Electronica Trance Music produced in Los Angeles in 2003. 25 MP3 Songs NEW AGE: New Age, EASY LISTENING: Background Music Details: "Electronica means Future and Science to me. It's a Music created with Computers and Samples. You do it in front of a Screen but it comes directly from the Heart and the Brain. I've been composing in the Electronica Field for 3 years now. I create these pictures of sounds for Audiovisual Applications and for Fun too. As a part of the "French Touch" Wave, they're good for Dance floors, I suppose. Let's dance."
