The manifestation of Last Prophet was born in the U.S., but developed and evolved in Europe. After leaving the United States after highschool at age 17 what returned almost 8 years later was no longer binding to any form,the music portrays the struggle of the artist surviving, traveling, and succeeding the globe around, at times throughout life the pen is the only friend, and the pen has fed at times. It is posotive for music fans of any preference, breaking down doors of hip-hop rules, as well as any form of music, rather than titles, encompassing percussion instruments from around the globe. This album features some of Michigans finest musicians as well as international artists painting the picture of life spun into music. As a child taught basic production and music by his older brother and later by some of Europes' most innovative producers (JIGGY JOINT)who also assisted, influenced, supported in the completion of this project, as well as a variety of highly skilled producers in Berlin,and throughout the globe have influences on this album. After publishing a short novel in 2002 and attending poetry slams in various countries, LAST PROPHET made a return to hip-hop, "innovating is all that truly matters,inventing can no longer be done" through innovation of something posotive the results are far better than the anticipated vision. The Death of Phillip Famiano is a backdrop for powerful lyrics, wordplay, pushing the boundaries of hip-hop, and all artistic forms. In a world gone synthetic, choking on paranoia, return to your roots and follow your dream. Enjoy creation. Thanks for the support.
