Popular and electronic elements layered in experimental fashion for fun and beauty. 12 MP3 Songs
ELECTRONIC: Pop Crossover, ELECTRONIC: Soundscapes Details: 57 min 35 sec total -- Hear the first
2 minutes of each track at left Mysteriam is the ongoing work of artists from many fields who want to fill
your life with delight, wonder and unpredictability. You can hear it in music, see it on video, feel it at
multimedia performances, and take it home in electronic devices. Every project the group pursues
involves plumbing the relationships of its members to discover and invent the beautiful accidents, the
space in-between, the evidence of a Great Plan in the divine mystery we all participate in at every
moment. ENTRYWAY, a complex layering of pop and electronic elements, is the first wide-release of
recording artist Corbett Lunsford, in collaboration with Mexican contemporary dance company Antares
Danza and Mysteriam members Mikalina Rabinsky, James Negley, Gopho.com, and a choir of spirited
distraction. Mysteriam is at once familiar and experimental. It is more than the sum of its parts. And it is
growing.
