Details: Robin Galante and Eric Pedersen are an acoustic duo based in San Francisco, California. Robin began her musical career as a solo singer-songwriter and played gigs in San Francisco and beyond. In April 2007, she was joined by guitarist and vocalist Eric Pedersen, who adds the perfect musical touch to her songs with his lush harmonies and unique guitar stylings. They regularly perform at a variety of acoustic venues all over the Bay Area, including the Bazaar Caf, Caf Trieste, the Hotel Utah and many more. Tired of hearing overly-produced music in their genre, they recorded The Fuzz Sessions live in their home studio, and the album was mixed and mastered using minimal processing to reflect the energy and honesty of their live performance. They reside in San Francisco with their beautiful guitars and their cat, Latte (aka Fuzz).
