Guaranteed to wear out your CD player. 17 MP3 Songs POP: Quirky, KIDS/FAMILY: Kid Friendly Details: "Aren't those guys WONDERFUL?!?" Soupy Sales (comedian and TV star) "I only wish there were more young men like those four!!" Tom Curley (President and Publisher of USA Today) Ladies and Gentlemen, what we have here is one of the finest Acappella groups to ever walk the Earth. :) Ok, maybe that's a little too nice. But I tell ya, these four guys have made SO MANY THOUSANDS of people smile and have a better day it sounds appropriate to say they are one of the best vocal groups around. Scott, Calvin, Ryan, and Mike...they started out as college buddies at Eastern Michigan University, and then found that the four of their voices put together made a sound that people would pay to hear! Out of sheer love for the art and an opportunity to spread the happiness that this kind of music gave them, the boys make it their pride and joy to make any appearance they can, regardless of size. And after all these years and countless live shows all over the US and Mexico, the music still rings true. And here's two facts perhaps you didn't know about The AYU Quartet: One of the members of this group was a series regular on "The Invisible Man" TV show on the Sci-Fi Network! Another member is the official voice of "Sonic The Hedgehog" for Sega Gaming Corporation!! It's a melding of creative minds that you just gotta hear! Spend a few pennies and have a CD that you will have in your CD Player for days at a time. The AYU Quartet... SUPER-CHARGED ACAPPELLA!!!!
