An eclectic mix of pop rock, folk rock and power pop with a bit of a psychedelic twist. 12 MP3 Songs

POP: Power Pop, ROCK: Folk Rock Details: The Trap are Mirl Wythe and Phil Oiler, two songwriters who happen to live in Colorado and California, respectively. Mirl writes lyrics and they both send demos back and forth to complete the music and the arrangements. Phil records the finished product at his home in California. Their style, though modern, does hearken back a bit to those bygone days when melodic pop rock filled the air waves -- and the air, for that matter. Fall Into The Trap!
