New Age - High-Tech Relaxation Music 9 MP3 Songs NEW AGE: Ambient, NEW AGE: Meditation

Details: From composer, musician, producer Frederick R Matzen A relaxation CD for the modern era.

Trilennium. This new age music is inspired by our time, our society, our world. Unlike the cookie cutter

piano music you hear for budget pricing in the discount outlets, this music has its own personality and

influences. An incredible blend of real world instruments (emphasis on WORLD) and modern electronic

synthesis, it captures the essence of our technologically oriented society. Our world where retro is

modernized and patronized, our world where fast-paced is normal and passive is "hick". This is the music

that fits into your hectic world and takes away the idiocy of the commute, the rush of meetings, the race to

succeed. The ever-changing moods and atmospheres create a serenity for your stress filled mind. This

isn't Yanni. This music is different and should be experienced. Over 60 minutes (9 tracks) of music

influenced by the world. It is TRULY relaxing and should NOT be heard when operating machinery or

during other potentially dangerous acts. Frederick is a musician of many genres and much experience.

He has adopted the Open Ear philosophy of music: listen to EVERYTHING the world has to offer and let

it influence and inspire you. Not just music but sounds of the Earth and nature can be inspiring and even

musical. Every sound has its place on our planet and in our lives and he is willing to absorb it all and learn

from it. In his many projects you may hear everything from an African Djembe to an Ibanez electric guitar.

Every sound is carefully placed to be part of a larger soundscape. Even if you don't listen to this music,

take a moment and listen to your world and perhaps hear what you have been missing.
