riffs you actually hear on top RnB tracks today!! Fantastic chords, professionally recorded in 24 bit audio, these 4-8 bar loops are highly contemporary and also come with midi files!! This special edition collection also features all the original MIDI performances, untouched and un-quantised, straight from the artists fingertips for maximum soul and real feel. However, for those producers who prefer their keyboard loops rock solid and locked in with the beat we have also included quantised Midi loops for the more contemporary feel of modern RnB and Pop. Quantised Midi files have been programmed using a Logic A groove, which is the equivalent of a standard straight 16. Those producers who really like to swing their drum grooves can adjust the swing factor of each individual midi loop to fit the groove of the beat within their DAW. This is just one example of the flexibility of Midi loops, which when combined with a high standard of performance make this collection stand out head and shoulders above other RnB piano sample packs. Urban Piano and RnB Vibes: Piano also come in 24 Bit Wav and Apple Loop formats as well as Midi and also with some of the other keyboard sounds and bonus beats heard in the RnB Vibes demo.
