A blend of lush classical orchestrations, meditative grooves, ambient sounds and featured electric violin

10 MP3 Songs NEW AGE: Contemporary Instrumental, EASY LISTENING: Mood Music Details: My passion is the violin. For more than 30 years I have been playing, studying and constantly exploring the mystery of this instrument. I have performed classical music, orchestral or chamber music, jazz, new age, Rock and Pop. As an arranger/producer/composer I had the pleasure of working with very talented people. I produced seven albums with violin stylist David Wilson, four albums with electric cellist Marston , and, most recently a double CD with compositions by actor John O'Hurley (Seinfeld, Dancing With The Stars). Following my album Violin Passion:Symphonic Dreams from 2005 I include new renditions of famous "classical" pieces in this collection. I perform on a "silent violin" from 1900, customized with a pick-up for creating my sound. I hope you enjoy listening to the meditative, uplifting, and quiet compositions. Not only after midnight.
