These are some of my favorite original Romantic Sexy Love Songs. I'm more of a songwriter than singer or technical engineer, but I love performing my songs. They make me feel good. Hope they do the same for you. These are home recordings... 10 MP3 Songs in this album (50:44) ! Related styles: EASY LISTENING: Love Songs, EASY LISTENING: Ballads Details: This album is a compilation of songs I wrote at different times in my life. I don't really try to write. Songs come out naturally, and they've helped me heal my wounds, made me feel like living with all my heart and soul again. And they continue to help me, lifting my spirits daily. I hope it lifts your spirit as well. These are home recordings made on a 4-track Tascam. It was \$135 brand new. I'm doing my own engineering and I'm still trying to figure out the equipment. It's kinda hard for me, but I love recording..just not the engineering part. I have a hard time keeping track of the levels while I'm playing and singing. I worked really hard to clean this album up. Even though sometimes my editing is not seamless, I hope the songs have value to you in your life.
