As a child, John developed a passion for melody and harmony. Music was always played in his home as a child; as his parents loved to sing, John was raised in a musical environment. At age 8, his parents bought a family keyboard, which he claimed as his own later that same day. Because of this, John not only began to teach himself how to play the keyboard but also to play by ear. In elementary school, John decided to learn to play the drums and has since become an extraordinarily talented and creative drummer. He is currently the main drummer at Faith Fellowship Ministries World Outreach Center in Sayreville, NJ; you can hear him playing each service and conference the church holds. Not only can John play the keys and the drums, he has recently taught himself how to play the bass guitar and continues to perfect his gift at playing each day. He is so adept at each instrument he plays, that people always compliment him on his musical skill. John is not only an artist, he is a brilliant musician. A fellow musician once said to him, "I bet you can pick up any instrument and just play it,"... and John is determined to find out if it's true!! God has not only gifted John with the ability to play and perform sweet music, He has placed an anointing on John to spread the gospel, a calling to which John is ready, willing and able to fulfill. John creates and produces his own music; he sings all lead and background vocals; he writes and arranges all his lyrics and instrumentation. When you purchase his album, it is truly an all inclusive package!! John pushes the envelope in what may be called "radical praise" and "intimate worship." His spirit and love for God can clearly be heard and defined in the way he sings. John not only

has a calling and is anointed; he has a long future ahead of him. He brings a refreshing voice and sound to gospel, in a new genre entitled "neo-gospel." John's dream is to lead God's people to the next level of praise and worship. John desires to deliver God's message and good news throughout the world. We know that this album "Fully Devoted" will be the first of many albums to come. We can't help but be excited and elated about what John Blue has and will continue to deliver.
