

Mp3 Seth Horan - Happenstance

[DOWNLOAD HERE](#)

"He plays solo bass guitar like Victor Wooten, sings songs like John Mayer and Ani DiFranco, and performs with the intensity of Martin Sexton. He's a freak of nature, and he's phenomenal." 5 MP3 Songs

FOLK: Power-folk, ROCK: Acoustic Show all album songs: Happenstance Songs Details:

"Happenstance" is the first release from bassist/singer/songwriter Seth Horan to feature the material entirely as you would live... whether looped or live, the only sounds on the entire album are made by Horan's voice or his bass. NOTE FROM SETH: This is a 5-song EP, and the way CD Baby works, I can't make any money selling it through their system. Please click the link over on the left if you'd like to order it. It's here because once the initial pressing sells out, I'll have CD Baby upload it to iTunes; that's why it's in their catalog. Sorry for any confusion!
