Groovy mix of Jazz, Latin. Blues, music featuring the harmonica of New Orleanian Vic Shepherd and his quartet 12 MP3 Songs BLUES: Jazzy Blues, JAZZ: Traditional Jazz Combo Details: Hello to all you music lovers!!:: Thank you for taking the time to learn more about my new cd (Chromatic Cocktails). The cd was recorded in early Nov.2004 in two short sessions at Word of Mouth in New Orleans, La. with my working band and very few overdubs. I moved to New Orleans in 1978. Since that time I have played full time guitar banjo in the tourist industry here, while raising our family (two children now in college) with my wife, Karen. During this time I have played several thousand jazz/ blues gigs in restaurants, festivals riverboats, clubs etc., all along backing up some of the best horn players in the city. While listening to them, I started wondering how jazz would sound played on the harmonica. With that in mind I started this project, it is very unique, and a true outgrowth of my experience with, and love of the music of New Orleans. (Jazz, Latin, Blues, R&B, Second line, Bossa, Mambo) . I hope you enjoy it! (Check out my other cd (New Orleans Harmonica), also available at cd Baby! Thanks for your consideration, Vic Shepherd
