

The Participatory Cultures Handbook

[DOWNLOAD HERE](#)

How did we get from Hollywood to YouTube? What makes Wikipedia so different from a traditional encyclopedia? Has blogging dismantled journalism as we know it? Our media landscape has undergone a seismic shift as digital technology has fostered the rise of "participatory culture," in which knowledge is originated, created, distributed, and evaluated in radically new ways. The Participatory Cultures Handbook is an indispensable, interdisciplinary guide to this rapidly changing terrain. With short, accessible essays from leading geographers, political scientists, communication theorists, game designers, activists, policy makers, physicists, and poets, this volume will introduce students to the concept of participatory culture, explain how researchers approach participatory culture studies, and provide original examples of participatory culture in action. Topics include crowdsourcing, crisis mapping, grid computing, digital activism in authoritarian countries, collaborative poetry, collective intelligence, participatory budgeting, and the relationship between video games and civic engagement. Contributors include: Daren Brabham, Helen Burgess, Clay Calvert, Mia Consalvo, Kelly Czarnecki, David M.
