Podcasting & Video Blogging! When you add podcasting and vlogging to your marketing mix, you begin to harness that star power, to brand your voice and image and to build a following that can give rise to an almost 'cult' following. Broadcasting your voice and image around the world over the Internet gives you a much larger potential audience than any television station has - and the delivery of broadcasts to cell phones, PDA's and other handheld devices increases that audience even more! Radio & TV stations pay millions to set up their facilities and get their broadcast out to the masses... But if you're reading this, chances are you only need one or two inexpensive software additions to be able to start broadcast right now - today! You don't even need website hosting - these technologies use the power of blogs (which you can get free through Blogger or WordPress) and podcast and video directories online like iTunes and YouTube, which will host your broadcasts for you for free as well! In this ground-breaking book you're about to download, you'll learn everything you need to know to quickly, easily and inexpensively get set up for podcasting & vlogging and even begin broadcasting your message today if you like! No fluff-filled 6-pager, this amazing resource is packed with over 40 pages of solid content including... Podcasting &
