

Inequalities: Theory Of Majorization And Its Applications

[DOWNLOAD HERE](#)

1;Preface and Acknowledgments from the First Edition ;6 2;History and Preface of the Second Edition ;10 3;Overview and Roadmap ;13 4;Contents ;15 5;Basic Notation and Terminology ;22 6;Part I: Theory of Majorization ;26 6.1;1 Introduction;27 6.1.1;A Motivation and Basic Definitions;27 6.1.2;B Majorization as a Partial Ordering;42 6.1.3;C Order-Preserving Functions;43 6.1.4;D Various Generalizations of Majorization;45 6.2;2 Doubly Stochastic Matrices;53 6.2.1;A Doubly Stochastic Matrices and Permutation Matrices ;53 6.2.2;B Characterization of Majorization Using Doubly Stochastic Matrices;56 6.2.3;C Doubly Substochastic Matrices and Weak Majorization;60 6.2.4;D Doubly Superstochastic Matrices and Weak Majorization;66 6.2.5;E Orderings on D ;69 6.2.6;F Proofs of Birkhoff's Theorem and Refinements;71 6.2.7;G Classes of Doubly Stochastic Matrices;76 6.2.8;H More Examples of Doubly Stochastic and Doubly Substochastic Matrices;85 6.2.9;I Properties of Doubly Stochastic Matrices;91 6.2.10;J Diagonal Equivalence of Nonnegative Matrices and Doubly Stochastic Matrices ;100 6.3;3 Schur-Convex Functions;102 6.3.1;A Characterization of Schur-Convex Functions;103 6.3.2;B Compositions Involving Schur-Convex Functions;111 6.3.3;C Some General Classes of Schur-Convex Functions;114 6.3.4;D Examples I. Sums of Convex Functions;124 6.3.5;E Examples II. Products of Logarithmically Concave (Convex) Functions;128 6.3.6;F Examples III. Elementary Symmetric Functions;137 6.3.7;G Symmetrization of Convex and Schur-Convex Functions: Muirhead's Theorem ;143 6.3.8;H Schur-Convex Functions on D and Their Extension to R^n ;155 6.3.9;I Miscellaneous Specific Examples;161 6.3.10;J Integral Transformations Preserving Schur-Convexity;168 6.3.11;K Physical Interpretations of Inequalities;176 6.4;4 Equivalent Conditions for Majorization;178 6.4.1;A Characterization by Linear Transformations;178 6.4.2;B Characterization in Terms of Order-Preserving Functions;179 6.4.3;C A Geometric Characterization;185 6.4.4;D A Characterization Involving Top Wage Earners;186 6.5;5 Preservation and Generation of Majorization;187 6.5.1;A Operations Preserving Majorization;187 6.5.2;B Generation of Majorization;207 6.5.3;C Maximal and Minimal Vectors Under Constraints;214 6.5.4;D Majorization in Integers;216 6.5.5;E Partitions;221 6.5.6;F Linear Transformations That Preserve Majorization;224 6.6;6 Rearrangements and Majorization;225 6.6.1;A

Majorizations from Additions of Vectors;226 6.6.2;B Majorizations from Functions of Vectors;232 6.6.3;C Weak Majorizations from Rearrangements;235 6.6.4;D L-Superadditive Functions---Properties and Examples;239 6.6.5;E Inequalities Without Majorization;247 6.6.6;F A Relative Arrangement Partial Order;250 7;Part II: Mathematical Applications ;262 7.1;7 Combinatorial Analysis;263 7.1.1;A Some Preliminaries on Graphs, Incidence Matrices, and Networks;263 7.1.2;B Conjugate Sequences;265 7.1.3;C The Theorem of Gale and Ryser;269 7.1.4;D Some Applications of the Gale--Ryser Theorem;274 7.1.5;E s-Graphs and a Generalization of the Gale--Ryser Theorem ;278 7.1.6;F Tournaments;280 7.1.7;G Edge Coloring in Graphs;285 7.1.8;H Some Graph Theory Settings in Which Majorization Plays a Role;287 7.2;8 Geometric Inequalities;288 7.2.1;A Inequalities for the Angles of a Triangle;290 7.2.2;B Inequalities for the Sides of a Triangle;295 7.2.3;C Inequalities for the Exradii and Altitudes;301 7.2.4;D Inequalities for the Sides, Exradii, and Medians;303 7.2.5;E Isoperimetric-Type Inequalities for Plane Figures;306 7.2.6;F Duality Between Triangle Inequalities and Inequalities Involving Positive Numbers;313 7.2.7;G Inequalities for Polygons and Simplexes;314 7.3;9 Matrix Theory;316 7.3.1;A Notation and Preliminaries;317 7.3.2;B Diagonal Elements and Eigenvalues of a Hermitian Matrix;319 7.3.3;C Eigenvalues of a Hermitian Matrix and Its Principal Submatrices;327 7.3.4;D Diagonal EAN/ISBN : 9780387682761 Publisher(s): Springer, Berlin, Springer Science & Business Media Format: ePub/PDF Author(s): Marshall, Albert W. - Olkin, Ingram - Arnold, Barry C.
