If LUTHER VANDROSS sang Gospel, this is what he'd sound like. 8 MP3 Songs GOSPEL:

Contemporary Gospel, JAZZ: Smooth Jazz Details: Apostle E. D. Mondain Belief are simply amazing.

The music itself is a beautifully unique combination of classic-gospel with a modern touch and an entirely new musical edge. The uncanny vocal discipline and unusual yet alluring harmonies of Belief (the voices behind Mondain) are unlike anything heard in music today, and are reminiscent of the amazing voice orchestrations of both classical choirs and old-school jazz groups. The diamond is Apostle E. D. Mondain, who came from the rough projects of St. Louis and has since become a champion of Gospel music in the Pacific Northwest. His 5 octave range and stunning versatility go unmatched as he transcends the style boundaries of gospel, opera, soul and jazz to produce an entirely new voice, full of genuine emotion and power. In the debut single, If You Wanna Party, you can experience but a taste of the musical prowess found in Apostle E. D. Mondain Belief.
