I think my music is classify as R&B. 10 MP3 Songs in this album (37:18) ! Related styles: URBAN/R&B: Traditional R&B, POP: Today's Top 40 Details: Eriq started n' 2001, It was a time when I started recording writing songs. But I knew dis was something I always wanted to do since I was little. This album itself is a collection of songs that talks about struggle, love, break ups, I didn't want miss any elements to add to this album. This cd itself is a reflection of when I first started to now. So at the same time it shows growth in writing my songs shows growth vocally as in artist. I came a long way with this album I'm glad to say that now everyone can listen to my 1st album. I wanted to do something that was out of the box because I always believe that if you copy off of everybody else it takes away identity of the artist takes away a growth an artist can. So Hope you like my cd, watch out for the second album, for more updates you can find me on myspace..
