Acoustic folk that pops and rocks with love, heart and soul. 6 MP3 Songs POP: Folkly Pop, ROCK: Folk Rock Details: Liams music keeps spinning around in my head, unsolicited, long after the song is sung. I like it that way. - Mark Ginsburg, Writer Liams voice has been captivating folks for a little over ten years now in coffee shops, living rooms and passenger seats. The tones in his songs are warm and genuine, though often with a sense of urgency. Even with such an invitingly personal sound, its still hard to say exactly where Liams songs, and voice, come from. We could say Montana. This northwest Rocky Mountain native spent much of his childhood climbing and scooting through creeks, over boulder fields and on snowpack. Montana is also where he wrote his first song at age sixteen on his dads 1964 acoustic Epiphone. And it wasnt until finding his voice in high school choir that Liam fully felt the gentle power of a voice singing from the heart. But that wouldnt be the whole story. We could say, too, that the magic of transforming joy, sorrow, love and heartache into music fuels the warmth and lyrical intensity of his vocal performance. His songs are gifts from one human being to another, carved of lifes peaks and valleys, creating a line that goes right to the listeners heart. We could say all that, and itd all be true. Ultimately, though, where Liams songs come from is still mystifying, most of all to the singer/songwriter himself. Songs come and go. Im just thankful to be around when they come. Enough said. Let the mystery continue . . .
