A collection of lush electro lounge/soundtrack takes from my 2001-2002 archives. 10 MP3 Songs EASY LISTENING: Lounge, ELECTRONIC: Ambient Details: This Cd is a compilation of songs that I uncovered from my archives. These songs are pure exploration into analogue sounds using gear such as the famous Alesis QS-6 and the Yamaha DJX. All songs recorded using a digital audio workstation with the exception of 'Clouds' which was done using a Tascam 424 mk II tape deck. This Cd is a lush, multi-layered work that is suited for soundtracks. 'Doodle Bits' marks the beginning of Refusion Projects' foray into the electronic genre after completing two Jazz Fusion/Lounge albums. Each of copy of 'Doodle Bits' is signed with my personal Chinese seal inside. And remember, you can get this CD for only 5 bucks from the bargain bin here at Cd Baby if you buy 3 titles or more!
