

Mp3 The Cosmic Giggle - Take The Leap

[DOWNLOAD HERE](#)

An epic, behemoth of a double-album squeezed onto a single disc. Fueled by solitude and psychedelics, this record takes off on a bouncy, anxious ride that doesn't let up for 72 minutes. 18 MP3 Songs POP: Quirky, ROCK: Psychedelic Details: This is their third record, recorded mainly at Mark Five's house in Hollywood. There's a lot of music on this record. Some might say TOO much music... But is there really such thing? There probably is actually. But in this case it's endearing, alright? These guys are reaching for something. This is a big, fat, ambitious, perhaps desperate, often melancholy and/or melodramatic, melismatic, but always melodious piece of art. Enjoy!
