Spiky garage-punk by girls who can play. 14 MP3 Songs ROCK: Punk, ROCK: Hard Rock Details: Here's what the folks at Chicago's best record store, Reckless, said about the Dishes' second album, 1-2: "It's sometimes hard to describe why some bands are so much better than others, especially others that have so many similarities. The mid 90's to present has seen a deluge of abrasive rawk garage bands, but Chicago's DISHES stand out. Whether it's the simplicity or the rawness, or the melodic confidence that THE DISHES aren't afraid to flaunt, the result is a profusive explosion of punked-out garage pop that elevates to the level of classics like THE STOOGES or THE SLITS while mixing the necessary amount of SLANT6, BANGS and even a little of DC'S MONORCHID. But the playfullness is ever-present and like, perhaps, TUSCADERO'S first record, the loudness is augmented by the fun factor which never stops in between the Patti Smith vocal attitude and the RUNAWAYesque riff rock. This is how Rawk N Roll was meant to be. Recommended!!!!!!!!!!"
