This is a folk/pop record, produced to be a minimalist masterpiece--These songs do the impossible by being both musical ear-candy without sacrificing artistic quality. 11 MP3 Songs FOLK: Folk Pop, COUNTRY: Country Pop Details: It is said that within the lines there is safety, comfort and religion. Yet outside them there is danger, pain and God. I have always preferred outside. These songs are about the miles we wield crossing our hard paths. They are beer-drenched, truck-stop, broken hearted tales often caught between an apology and a complaint. They move in the musk, misery and marvel of this amazing world and try to protect the simple thing and outwit the nonsense. They are decorated with adjective, analogy and crab pinching questions. They are tongue-tied aches for home, meant to help you appreciate the beauty in the mundane and the grand universals in the ordinary. They are about living and breathing, loving and grieving I hope to find that coveted place between the ears of authentic listeners. Within these songs there is a real tension between heart-on the sleeve romanticism and bittersweet pessimism and I hope they stand out as special in a landscape of musical sameness. Weather exploring the nature of everyones favorite four-letter word or pointing to the one who can fill up the leaky balloon of your heart I tried to be honest about the way things always end and begin with a line. In the end they are little more than daily discoveries from a humble young man trying hard to marry good words and melody. This is me at ball-points best. Enjoy! Songwriters REVIEW Brock Lawley unlike so many sanitized Christian songwriters refuses to spend his lyrical focus cherry picking home schooled teens from suburban mega-churches. He will likely never be played at some youth group retreat with a name like fun in the son. Instead he longs to make a genuine artistic statement about the world around him seen through the lens of his personal faith. In what many have called the ghetto of contemporary Christian music Brocks music stands out due largely to his artistic choice to illustrate the thrill of the journey rather than the black

and white absolutes of the Christians desired destination. The songs anchoring his bands new album WORLD RUSHES IN dare to smile when doing so is artistically out of style. These wide-eyed tales of discovery, devotion and doubt are stitched together with a gauzy aura of mystery and awe. Each song proves to be an artistic expressions faith without getting high and mighty about it.
