A wide-eyed paleographer from Antares arrives on the Greek isles to study ancient inscriptions with a sharp-tongued communications professor. Blundering through the lexical labyrinth, they discover love among the runes, until one gloss too many uncovers a thread of deception that leads straight to disaster for both their planets. Will the amiable alien save the day by revealing his semantic secrets, or will the censorious Antarans throw the book at him? Will the professor of pictographs see the light? Fire up your universal translators, it's Prometheus, Bloodied but Unbound! "Studded with clever double entendres and puns, this makes an engaging read for language lovers." -Booklist
