Plugins are tools that extend the functionality of WordPress. The core of WordPress is designed to be lean, to maximize flexibility and minimize code bloat. That's why the Search Engines like Google, Bing and Yahoo love Wordpress!!! So plugins give you custom functions and features enabling you to tailor your website to meet your specific needs. Why Do You Need Plugins? Bottom Line... Plugins save you massive amounts of time in the design, maintenance and administration of your Website!!! To better understand, Let's look at a few examples... Askimet Just using WordPress will open you up to tons of comment spammers. The best way to defend your site from these annoying spammers is to insall the Askimet plugin. It will weed out the messages before you ever see them. While this plugin actually comes with Wordpress, it needs to be activated with an API key. -- Google XML Sitemaps This plugin will generate a special XML sitemap which will help search engines like Google, Bing, Yahoo and Askto better index your blog. With such a sitemap, it's much easier for the crawlers to see the complete structure of your site and retrieve it more efficiently. This plugin supports all kinds of WordPress generated pages as well as custom URLs. Additionally it notifies all major search engines every time you create a post about the new content. -- W3 Total Cache W3 Total Cache improves the user experience of your site by improving your server performance, caching every aspect of your site,

reducing the download times and providing transparent content delivery network (CDN) integration.

-- SEO Ultimate This all-in-one SEO plugin gives you control over title tags, noindex, meta tags, slugs, canonical, autolinks, 404 errors, rich snippets, and more.

-- Contact Form 7 Contact Form 7 can manage multiple contact forms, plus you can customize the form and the mail contents flexibly with simple markup. The form supports Ajax-powered submitting, CAPTCHA, Akismet spam filtering and so on.

-- WP-PageNavi This plugin adds a more advanced paging navigation interface. Want to replace the old ? Older posts | Newer posts ? links with some page links? This plugin provides the wp_pagenavi() template tag which generates fancy pagination links.

-- WP e-Commerce The WP e-Commerce shopping cart plugin for WordPress is an elegant easy to use fully featured shopping cart application suitable for selling your products, services, and or fees online. This is the most popular WordPress shopping cart plugin available that is compatible with Google Checkout, Paypal, Authorize.net, Payment Express and many other trusted payment processors.
