AdsDX - Manage & Sell Advertising Spaces Off Your Website "How YOU Can Turn Every Web Page Into Profit-Pulling Power Stations Simply By Selling Advertising Spaces!" Dear Friend, If you own websites with very well established traffic flows of targeted visitors, you can turn your web pages into additional profit-pulling power stations, making even more money for you! All it takes is a little extra effort, a little extra perception, and a little shift in the thinking, perhaps. And that's what my solutions, AdsDX Software, does for you, so you can achieve this the quick and easy way! Introducing: AdsDX Software The AdsDX Software allows YOU to easily manage your advertisers the way you want, saving more time and effort on your part while you go on to make even money from selling advertising spaces within the boundaries of your web pages! Here's How AdsDX Can Benefit Your Web Advertising Campaign: Easily set up your own choice of advertising packages with your rates for your potential advertisers to pick and choose to suit their needs, Offer a range of advertising spaces on your web pages and you all set to start accepting advertisers for profits! Have your own banner ads/text ads rotating system run around the clock on your web pages! Easily manage, add, edit, and remove your advertisers with this powerful all-in-one web ad solutions software! Create repeat customers among your advertisers and thus make residual income from a work done just once! Collect leads from your advertisers for future follow ups on special offers you may

have for your customers! Allow your advertiser's ads to be displayed to laser-focused, targeted niches, if you run more than one website on different niches! And much more! Minimum Requirements PHP/Unix compatible system, cPanel is suggested, MySQL 3.22.04+, PayPal, StormPay, 2CheckOutor SFIPay account for processing payments.
