With this powerful Hyper Viral Pages script, you can walk into this land of prospects with ease. Here's how the system works: You build a Facebook fanpage and offer a free stuff to visitors who become your fan. They must click "Like" icon in order to receive permission to get the free stuff. They become a fan and land on your Hyper Viral Pages sequence. First of all, when they click "Like" icon it will appear on their wall as a "Recent Activity" and all of their friends will see it too. If one of THEIR friends click on the link and also become a fan of your page then all of THEIR friends will also see it. And it goes on and on and on... (nothing special so far) They will go to the next page of your Hyper Viral Pages sequence. When they shared your page and clicked "Next" they will see another page where they can send an email to THEIR friends' Facebook email address and invite them to YOUR PAGE! Now they enter the final page of your Hyper Viral Pages sequence. This page is where you deliver the promised freebie to them. You can use this page to deliver your authority building or pre-selling or viral content, build a list (you can add an opt-in form or registration link to this page), or just give them your link for your preferred CPA offer and make some easy money.
