Awarded Multilingual Pop Singer Songwriting from Luxembourg 11 MP3 Songs POP: Beatles-pop, POP: Folky Pop Details: dream catcher dream catcher is John Rechts solo project. The former T42 singer is a well-known festival promoter in his country as well as Ezios manager. T42 was one of the most renowned Luxembourgish bands between 1990 and 2005 and toured most of Europe, including the Czech Republic in 1992. They opened for the biggest international acts, such as Bon Jovi, Michael Jackson (sorry about that), Alanis Morissette and many more). If dream catcher have kept T42s live dynamic, the songs written by John Rech, Eric Falchero and Marcus Praed are far more refined and emotional. In 1998, the release of their first EP happy in my tree house underlined the bands strong hit potential. 8 years later, the single is still one of the most played songs on local radio stations. In 2003, John and Eric Falchero wrote the theme song, deng Hand, for the Tlvie Campaign. The single went straight to number 1 in the charts and reached gold status within a couple of weeks. Enjoying this collaboration, the two rented a house in the South of France and wrote a couple of new songs, including the single Verluer, for an EP called 3 released in early 2005, just before dream catcher supported Ezio on their German Tour in March. The bands performance was astonishing and the multilingual set (English, French and Luxembourgish) found a great response. Same success at Luxembourgs main festivals over the summer, while their former bands farewell album reached 5 times platinum. A farewell indeed After a short break, Eric, Marcus and John returned to the Mhle der Freundschaft in Bad Iburg (Germany) at the end of 2005 to record the follow-up to 3. Once again, recorded, mixed and produced by Marcus Praed (by the way, Ezios sound engineer, who also plays different instruments), the new songs benefited from the general enthusiasm in the studio and the lack of constraints. A first single, called sunny days, has just been released to support the 2006 Tlvie campaign while the new album (also called sunny days) will be

published in Germany (edel contraire distribution) on April 7th. Luxembourg is a cultural and linguistic multi-pot and thats exactly what this album is about. From English Pop to French Chanson, the multi-cultural musicians enjoy bathing in many stiles and languages. While any other band releasing such an album would probably be considered as looking for its identity, this album is for dream catcher rather an acknowledgement of ones roots. And thats exactly what theyre gonna take on the road so look out for dream catcher live dream catcher happy in my tree house (1998) dream catcher deng Hand (2003 / gold status) dream catcher 3 (2005 / limited tour edition) dream catcher sunny days (2006 / single) dream catcher sunny days (2006 / album) dream catcher dreamcatcher.lu / john@dreamcatcher.lu
