Folk pop, with an emphasis on powerful lyrics, tight harmonies, and organic acoustic arrangements. 14 MP3 Songs FOLK: Folk Pop, COUNTRY: Country Rock Details: Mary Gerwin started her career as a singer songwriter while still a student at Vanderbilt University in Nashville. The deep pool of talent in the Nashville music community was a great inspiration to her then and remains the standard of excellence for her music today. During the next 20 years, Mary honed her craft in front of audiences in the various places she lived (Florida, Michigan, Illinois, Washington, and now Denver) and wrote a library of songs to reflect the observations and emotions from her own life as well as the lives of those around her. The most personal of these songs are captured in her debut CD "The Shores Of Les Cheneaux", whose title song celebrates her family and the special cottage they share in Michigan's Upper Peninsula. Other themes in the CD include love found, lost, recovered, and, occasionally "spoofed", as in the wry comedy of "Trophy Wife". With thoughtful lyrics, memorable melodies, strong arrangements, and powerful performances, Mary Gerwin's contribution to music makes a mark worthy of her Nashville roots.
