[DOWNLOAD HERE](#)

The original cast album of the hit musical comedy. The classic Cinderella story, but told with a fabulous San Francisco twist. 21 MP3 Songs in this album (59:28) ! Related styles: EASY LISTENING: Musicals, EASY LISTENING: Show Tunes People who are interested in Cole Porter should consider this download. Details: OH MY GODMOTHER! is a side-splitting, over-the-top spin on the classic Cinderella tale. But don't think you know the whole story just yet, for as the opening lyric cautions: "You may think you've heard this story told before, but you only know the gist. This one has a different twist." Start with Albert, a love-struck gay teen in San Francisco. Toss in a homophobic Stepmother, a drag-loving 'Godmother', the reigning queens of Castro Street and their adopted son Prince--whos questioning his own sexuality--and youll begin to get an idea of why this show has been greeted by gales of laughter, sold out houses and critical acclaim. Ron Lytles score, which has been compared to the classic works of Irving Berlin, Cole Porter and Jerry Herman, is a parade of syncopated showstoppers including such memorable tunes as Fabulous! Its A Boy and Old Fashioned Commitment Ceremony.
