Sensual rock, sophisticated folk, and jazz/blue notes, (if you think the music defies being boxed, wait till you hear the lyrics...) 14 MP3 Songs POP: Beatles-pop, POP: Quirky Details: "Sahra has a triumph for a first CD...quirky, penetrating, and intelligent...truly a pleasant surprise for even the most jaded listener."

Sahra, songwriter, singer, musician and poet, has been writing since she was 13. Born when the Beatles were making their way to the top, she's post forty, not top forty. Sahra's music is a soulful reaction to a life fully lived and touches a universal chord in all of us; she writes about passion, friendship, obsession, love, anger, and forgiveness in a voice both beautiful and honest. "(Sahra's) music gets into your blood... it nurtures your soul one minute and bites it the next...sardonic and sexy, "Sahra" is an easy taste to acquire." Accompanied by musicians who have worked with everyone from Celine Dione to Tom Waits, Sahra's songs are true originals that covers a diverse spectrum of sound and emotion. Shades of sensual rock, jazz/ blue notes, sophisticated folk and hues of new age, this CD tells a womanstory in a voice we all understand. A Quick Note From Sahra: Thanks for taking some time from your life to check out my music. If you enjoy it, please buy some CDs (think Holiday gifts?) and let your lips move because it's all about word of mouth. Because this CD covers so many styles, each song has a two minute sampler so you really know what you're buying beforehand. My website, Sahramusic.com, also has a medley of all 14 songs. Some of my best music I wrote specifically for benefits, films, fundraising events, etc. If there are certain organizations you feel could use my talents as a songwriter or performer, feel free to contact me via my website, Sahramusic.com. For those of you who have read all of this, well, I think I love you!

Thanks for your support and interest. Sahra Complacent souls, open your ears, come out and play. It's time to wake up. It's time to wake up.
