

# Mp3 Straight Up - Now Is The Time

[DOWNLOAD HERE](#)

Christian Rock/Country Rock with a new age twist. 12 MP3 Songs EASY LISTENING: Soft Rock, ROCK: Progressive Rock Details: Straight Up is a independent unsigned three piece Christian Rock/Country Rock band from Eaton, Ohio. The band members David Barker (Vocals/various guitars/keyboards), Garner Delano Barker (Vocals/Acoustic guitar/keyboards), Joey Barker (Vocals/Drums/percussion) all live at Lakengren Lake just outside of Eaton. We write, produce, engineer, mix and distribute our own music from our home studios at Lakengren. We all also have our own music careers outside the band. David plays guitar in a local Dayton area band, Joey Barker plays drums in various local bands, and Garner (Delano) has a solo career. Straight Up was formed back in 1998 when David and Delano put the band together and released their first CD "NOW IS THE TIME". The CD has been doing well and can be reviewed also at thespiritradio and delanomusic. Straight Up is now working on their second CD "I LAY DOWN MY BURDENS" which we hope will be released sometime the Fall of 2004 or early Spring of 2005. "I LAY DOWN MY BURDENS" and "DON'T CRY FOR ME" from the upcoming CD can be reviewed at thespiritradio. We will keep you updated on its release. Joey Barker has joined us on this new CD who is one of the local areas best drummers. We have completed 5 songs for the CD as of date and are currently in the studio finishing the rest of the CD. People say we have a sound like the groups Jars Of Clay, Poco, 38 Special, Beatles, Pink Floyd. We play Christian rock, contemporary, country rock, and alternative style Christian music and like the mixed variety on our CDs. If you have any comments, questions, information about the band and it's music, email us. Delano at delano1@bright/ David or Joey at dbarker57@hotmail.com or contact (937) 472-3366 or (937) 472-0357. Thank you for taking the time to read about our band and may God Bless. Love Him More In 2004 Straight Up David, Delano Joey
