The name may be short but the legacy behind it stands strong. Born in Northern Mississippi but, raised on Milwaukee's Northeast side, LC's fascination with music began at a young age by teaching himself how to play instruments like the drums, bass guitar and keyboard. By the time LC was 12, he was playing the drums for his Middle School band and continued on throughout High School. This was around the same time that R&B and Rap music started to evolve. LC was fascinated with the Minneapolis Sound but at the time playing drums started to become like an addictive drug. He hasn't let go since. LC's dream of achieving such things as producing, composing and performing music for recording artist as well as for film and movie scores is within reach. Having graduated in 2003 with an Associate Degree in Recording Engineering, LC's hope is to accomplish the feeling of a timeless art. This timeless art is represented in artists like Curtis Mayfield, Barry White, Jimi Hendrix, Marvin Gaye, Al Green and a long list of others. Even though their ideas were produced long ago, he feels their music can fit any time period. Please stay tuned for more music and more information Behind The Lcxperience. Guaranteed to keep you guessing.....
