Low-Fi Geek Rock 20 MP3 Songs POP: Beatles-pop, KIDS/FAMILY: Kid Friendly Details: This album is a collection of wicked-silly geek rock songs by cartoonist Kyle A Carrozza, aka "TV's Kyle". It was all recorded on an oldish Mac with system 9 in a long-outdated recording program, so it's terribly low-fi. Still, the catchy melodies and odd subject matter make the strange journey all worthwhile. Great for fans of Lemon Demon and Logan Whitehurst!
