Vertigo Road's stunningly aware lyrics and use of eclectic instrumentation have never been more acutely defined than on the band's second release - Oceans. From slide guitar to flugelhorn, nothing disappoints on Oceans, including the poignant vulnerability of the title track and "Green and Plenty", which offers sharp cultural commentary infused with a country vibe. "On your journey to discovering new music, we recommend you take a trip down Vertigo Road. A dulcet blend of this duo's vocal talent is beyond remarkable. Dawnia Carlson Kim Kopp make the notion clear that musicians do have creative soulmates.
