ClikGate Pro Instantly and Easily Setup a Fully Automated Password Protected Directory. Never Again Will You Fall Victim to Password Distribution!!

From the office of FBM Date: Friday, August 10, 2007 Dear friend, Fact is, some people steal - and some people dont think twice about taking something of YOURS - without asking your permission, or if you sell online - without paying you for it. If you give a download link to someone - what is to stop them from passing it around? If you password protect a directory, that password could be in the hands of DOZENS of users - all of them accessing your site / product - and never pay you. Everybody is looking for a safe and efficient way to automate the delivery of their product. ClikGatePRO can do just that. Once you have your product fulfilment automated, you can have more time to: * Tweak your marketing system * Create new products to sell * Use the time to advertise more * Give customers incredible support and

anything else. Lets face it, time is money. If you are wasting your time on manually delivering your product, then you are missing out on money. Let ClikGatePro password protect your e-book, special report, software, files, membership site or whatever else you are selling on the internet. You can set it up to allow only 1 member to access your product from 1 username. This prevents people from re-distributing their passwords to their friends. Very Powerful! ClikGate Pro Features: *
