

Microbial Phosphate Solubilization

[DOWNLOAD HERE](#)

From the contents- Taxonomy of rhizobia: An Overview: A. Willems; Genetics of phosphate solubilization and its potential application for improving plant growth-promoting bacteria: H. Rodriguez, R. Fraga, T. Gonzalez and Y. Bashan; Biodiversity of populations of phosphate solubilizing rhizobia that nodulates chickpea in different Spanish soils: R. Rivas, A. Peix, P. F. Mateos, M.E. Trujillo, E. Martinez-Molina and E. Velzquez; Phosphate solubilization activity of rhizobia native to Iranian soils: H. A. Alikhani, N. Saleh-Rastin and H. Antoun; Differential effects of coinoculations with *Pseudomonas jessenii* PS06 (a phosphate-solubilizing bacterium) and *Mesorhizobium ciceri* C-2/2 strains on the growth and seed yield of chickpea under greenhouse and field conditions: A. Valverde, A. Burgos, T. Fiscella, R. Rivas, E. Velzquez, C. Rodriguez-Barrueco, E. Cervantes, M. Chamber and J. M. Igual; Effect of Tilemsi phosphate rock solubilizing microorganisms on phosphorus-uptake and yield of field grown wheat in Mali: B. A. Hamadoun and H. Antoun; Screening for PGPR to improve growth of *Cistus ladanifer* seedlings for reforestation of degraded mediterranean ecosystems: B. Ramos, T. Pereyra de la Iglesia, A. Probanza, J.A. Lucas Garca, M. Mejias and F.J.Gutierrez Maero; Phosphate-solubilizing microorganisms isolated from rhizospheric and bulk soils of colonizer plants at an abandoned rock phosphate mine: I. Reyes, A. Valery and Z. Valduz; Microbial solubilization of rock phosphate on media containing agro-industrial wastes and effect of the resulting products on plant growth and P uptake; N. Vassilev, M. Vassileva, A. Medina and R. Azcn; Making microorganisms mobilize soil phosphorous: A. Richardson; Future trends in research on microbial phosphate solubilization: one hundred years of insolubility: A. H. Goldstein; Molecular methods for biodiversity analysis of phosphate solubilizing bacteria (PSB): A.Peix , E. Velzquez and E. Martinez-Molina; Taxonomy of phosphate solubilizing bacteria: P. Kmpfer; Taxonomy of filamentous fungi and yeasts that solubilizes phosphate: E. Velzquez and M. E. Trujillo; Phosphate solubilizing microorganisms: effect of Carbon, Nitrogen, and Phosphorus sources: E. Nahas; Efficacy of organic acid secreting bacteria in solubilization of rock phosphate in acidic alfisols: S. Srivastava, M. T. Kausalya, G. Archana, O. P. Rupela and G. Naresh-Kumar; Solubilization of iron and aluminum phosphates in the soil by the fungus *Aspergillus niger*: C. B. Barroso and E. Nahas; Fertilizers, food and

environment: J. M. Igual and C. Rodriguez-Barrueco; Phosphate Solubilizing Microorganisms vs. Phosphate Mobilizing Microorganisms: What separates a phenotype from a trait?: A. H. Goldstein and P.U. Krishnaraj; Challenges in commercializing a phosphate solubilizing microorganism: *Penicillium bilaiae*, a case history: M. Leggett, J. Cross, G. Hnatowich, and G. Holloway; Interactive effects of phosphate-solubilizing bacteria and mycorrhizal fungi at increasing plant P availability and their evaluation by using isotopic techniques: J. M. Barea, M. Toro and R. Azcón; Distribution pattern and role of phosphate solubilizing bacteria in the enhancement of fertilizer value of rock phosphate in aquaculture ponds: state of the art: B.B. Jana; Construction of a vector for stable chromosomal integration of the *phoC* gene in plant growth- promoting bacteria: R. Fraga-Vidal, H. Rodriguez Mesa and T. Gonzalez -Daz de Villegas; Microorganisms with capacity for phosphate solubilization in D"o red wine (Portugal): L. R. Silva, R. Rivas, A. M. Pinto, P. F. Mateos, E. Martinez-Molina and E. Velsquez. EAN/ISBN : 9781402057656
Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Velazquez, E. - Rodriguez-Barrueco, C.
