Founding member of Hades and Non-Fiction.....As featured in the current issue of Metal Edge (with Slipknot on cover)....and the new Metallica book "The Truth about Metallica:In Justice For All by Joel McIver. 17 MP3 Songs METAL: Doom/Stoner Metal, METAL: Heavy Metal Details: Hey! I formed Hades and Non-Fiction...toured Europe and the US with both...stopped in 2002. Asked John Kosco to sing on a couple of my new tunes and promised if he did I would help him get a huge record deal. John sang "Fiend" and "Devils a Lady" for me. John had met Sully from Godsmack once in NJ after a Godsmack show but they hadn't had contact in a year. I called Sully's management, left message....Sully called John. John now sings on new Godsmack acoustic cd and his new band Dropbox is on tour with Godsmack. I wanted to record more songs...since John was signed to Universal I decided to try singing.I'm not a great singer...but my record came out pretty cool. Plus I got to turn the guitars up real loud. I recently finished my 2nd solo cd "Nice Being Alone". Blitz from Overkill sang on a song I wrote called "Too Fast For Hate". Matt from Single Bullet Theory sang on "Naked". Dave Neabore from Dog Eat Dog played bass on "F-Bombs For Everyone". It will be out the first week of September. My website is DanLorenzo.net
