Novel atmospheres with attractive chords and melodies. engaging aerial voice, songs in English with a little French accent. some creative breath of the 70's with present textures. 8 MP3 Songs POP: Psychedelic Pop, ROCK: Progressive Rock Show all album songs: The Planet of Famous Apples Songs Details: I'm self-taught and play different instruments, most guitars (Martin D35) and especially in open-tuning to get novel chords and colors. I play alone as a writer or a painter; I'm not interested by stage, I prefer to take my time to compose. I believe in the magic power of good deep compositions, good sincere songs, for the people that like to listen into the car or at home, looking for weird atmospheres... I have created instrumental musics for theater and contemporary dance in the 80's and 90's but I also like to write songs. I sing in English because this is my musical culture. I choose the words of my songs for the sound first (like a real instrument), then I give some signification to the lyrics..It's somewhere international "English" songs! Also, many people said to me that my music is establishing a kind of bridge between the fantastic creativity of the 70's and the present tendencies with novel textures. Didbo.
