listen to a crying guitar, on terrible time in tulsa, or lean back and listen to the throbbing beat of high school queen, yes you too can hear the great sounds of and the best of JOHN STUART he makes that guitar talk, and makes you also want to cry. 13 MP3 Songs COUNTRY: Country Rock, POP: 60's Pop

Details: In 1970 John S. Perrault aka "JOHN STUART" was in the music business before. He had a record, you know those black things that were round, made out of carbon, and scratched all the time. those things." any way, He had written two songs on a 45rpm record along with a female co writer, and the song was put on RCA Gold Label, in the 70's. but wouldn't you know it, in those terrible days of music, the stations would not play the songs without payola. You know money, the Green Stuff, "" and lots of it." My songs were were shelved, and the songs in that era were a lot different than what they are now.

believe me, Anyway moving right along, I have finally gotten back into the Song Writing Business and have created my own label, "DESERT STAR RECORDS", DSR 1001, which is my first cut of 13 songs on my own label. I have my own recording studio which I have produced some very nice songs with. I am playing all the instruments and singing on the recordings plus all the engineering and mastering work I did myself. there is nothing like wearing too many hats at one time, HA HA. This project is now BMI registered. I am putting my new cd on cd baby "The Best Of John Stuart" out for the public to hear, prior to going on the commercial Radio Stations, and Indie Stations, and the webcast stations across the nation and the world. I hope you enjoy my country pop, my country, my christian music, of which I have one track on all my cd's no matter what the count is. there will allways be a christian song on my cd. God has played a big part in the last year ,of creating this cd.
